PATENT

Express Mail Label Number: EV 316 159 521 US  
Date of Deposit: April 21, 2005

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

In re application of Radhika THEKKATH

Serial No.: 09/844,669 Examiner: McCarthy, Christopher S.

Confirmation No.: 8984 Art Unit: 2113

Filed: April 30, 2001

For: **TRACE CONTROL FROM HARDWARE AND SOFTWARE**

**Mail Stop PETITION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450-

**PETITION UNDER 37 CFR 1.181(a)  
WITHDRAWAL OF HOLDING OF ABANDONMENT (MPEP 711.03(c))**

Applicant's counsel was notified by Examiner Christopher McCarthy on March 15<sup>th</sup>, 2005 that a 6 month deadline for responding to a final rejection Office Action mailed on August 3, 2004 had expired for the present application. Applicant's counsel discussed the case again with Examiner McCarthy in a subsequent telephone interview of March 16, 2005 and was informed that a Notice of Abandonment would soon be issued for the present application such that it would be timely to file a Petition to Withdraw Holding Of Abandonment.

The Office Action of August 3, 2004 was not received by Applicant's counsel. A search of the file jacket of the present application and docket records was performed and indicates that the Office Action dated August 3, 2004 was not received.

Applicant is including as evidence of non-receipt of the Office Action the following: 1) Exhibit 1, an exemplary electronic docket report for U.S. Pat. No. 6,430,655 that is included to illustrate the manner in which due dates, end-of-line (EOL) dates and completion dates are electronically docketed by Cooley Godward, LLP ("Cooley"); 2) Exhibit 2, an electronic docket report for the present application; and

3) Exhibit 3, a copy of mail logs of Cooley for the months of August and September in 2004. Note that for the purposes of explaining how Cooley's electronic docket reports are formatted, Exhibits 1 and 2 have had labels added for due date, EOL date, and completed date columns.

Exhibit 1 is an electronic docket report for U.S. Patent No. 6,430,655 (attorney docket MTEC-001/00) that is provided as an example to illustrate the manner that various columns in Cooley's electronic docket report are organized. The electronic docket report of each case, such as attorney docket MTEC-001/00, is updated with each new correspondence received from the USPTO to record action items that require a response to be filed in the USPTO. There are three columns for each action item that is docketed. A due date column records a "first" date for filing a response with the USPTO. In the case of an amendment, the first due date may, for example, correspond to a date for responding without payment of an extension fee or a two-month date for responding to a Final Rejection. An end-of-line (EOL) date column records a last possible statutory date for filing a response with the USPTO. A completed date column records a date when an action is completed. When an action item is completed the due date and EOL date columns for the action are cleared and the date the response was filed is recorded in the completed date column. Thus, in the example of U.S. Pat. No. 6,430,655 the issue fee payment date is recorded in the completed date column as May 30, 2002, since this action item was completed. Note that the remaining uncompleted action items, namely payment of maintenance fees, have dates listed in the due date and EOL columns.

Exhibit 2 is an electronic docket record for the present application. The electronic docket report for the present application has no items in the due date and EOL date columns. All of the action items have entries in the completed date column. For example, the Amendment filed on May 27, 2004 in response to the first Office Action (OA) of March 4, 2004 has an entry "Respond to OA" with a completion date of May 27, 2004. If the Office Action of August 3, 2004 had been received an entry "Respond to OA" would have been docketed with corresponding two-month and six-month dates for responding to it in the due date and EOL date columns, respectively (i.e., with a two-

month date in the due date column of October 3, 2004 and a six-month date in the EOL column of February 3, 2005).

Exhibit 3 is a mail log of patent-related correspondence received by the Reston Office of Cooley. The PTO correspondence address for the present application is the Reston Office of Cooley. Mail from the USPTO normally arrives from the USPTO within at most a few weeks from the mailing date of the USPTO. Thus, if the Office Action of August 3, 2004 had been received by Cooley it would have been recorded in the daily mail log of August 2004 or September 2004.

The standard mail processing procedures at the Reston Office of Cooley includes the preparation of a daily mail log, which lists documents received by the Patent Law Group. The daily mail log records the attorney docket number of correspondence received along with a description of where the correspondence comes from and a short description of the correspondence. Documents received from the USPTO are marked in the "From" column as originating from the PTO. The receipt of the correspondence and future actions to be taken on these documents are then docketed in the firm's electronic docket record. For the present application the attorney docket number is MTEC-003/00US. It can be seen in Exhibit 3 that no correspondence was received in the months of August and September from the USPTO for MTEC-003/00US that would correspond to the August 3, 2004 Office Action.

Applicant respectfully requests that the holding of abandonment be withdrawn, a copy of the Office Action mailed August 3, 2004 be mailed to the undersigned, and prosecution be resumed.

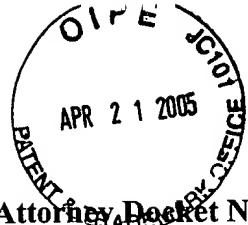

Dated: April 21, 2005
